PROJECTS

❖ Mern stack Notes app	2026
Built a responsive full-stack notes application using the MERN stack (MongoDB, Express.js, React.js, Node.js) that allows users to create, read, update, and delete notes. Designed a mobile-friendly UI and developed RESTful APIs for seamless frontend-backend communication.	
❖ Spotdrop	2026
Collaborated with a team to build a full-stack website that allows users to add sports-related spots on a map, such as climbing, hiking, and skiing locations, where they can discuss each location through forum pages.I have contributed to making and maintaining the Backend as well as making the forum page .
